Get prepped

Preheat the oven to **180°C/160°C fan-forced**. Measure out 100g **butter**. Roughly chop the **roasted peanuts**.

TIP: Measure out your ingredients before you start to speed up your baking time!

Brown the butter

In a small saucepan, melt the **butter** over a medium-high heat, until beginning to brown, **2-3 minutes**. Set aside until cooled slightly, **5 minutes**.

Make the cookie dough

In a large bowl, mix the browned **butter** and **brown sugar** with a wooden spoon until well combined. Add the **egg** and mix until smooth. Stir in the **basic sponge mix** to form a thick dough. Add the **white chocolate chips** and 1/2 the chopped **peanuts** and stir until combined. Refrigerate the dough for **10 minutes**.

TIP: Refrigerating the dough helps the cookies spread less when baking.

Bake the cookies

Roll tablespoonfuls of **cookie dough** into balls. You should get 15-20 cookies. Place the balls on two lined oven trays, allowing room for spreading. Bake for **14-16 minutes** or until golden. Allow the **cookies** to cool on the tray for **5 minutes**. Transfer to a wire rack to cool completely.

Melt the chocolate

When the cookies have cooled, place the **milk chocolate chips** and **vegetable oil** in a medium heatproof bowl. Microwave in **20 second** bursts, stirring each time, until melted and smooth. Dip the cookies halfway into the melted **chocolate** and carefully place on a lined tray. Sprinkle the melted **chocolate** with the remaining **peanuts** and refrigerate until set, **20 minutes**.

TIP: Melting chocolate in 20 second bursts stops the chocolate from burning.

Serve up

Transfer the cookies to a plate or board to serve.

TIP: Store any leftover cookies in an airtight container for up to 2-3 days!

Enjoy!
